

The Holm Filter Warranty

Holm's reputation has been built on an uncompromising commitment to ensuring the highest possible standards throughout the business. Independent auditing and certification give our clients 100% confidence that all products branded by Holm are manufactured according to exacting standards.

Only a company with such standards can confidently offer customers a full 12 Month Parts and Labour Warranty*

If a Holm-branded filter fails **within the first 12 months** due to a manufacturing fault, Holm will not only supply a replacement part, but will cover certain associated costs of restoring the vehicle back to the condition it was in before the failure.

You can be confident that by using Holm filters they have been designed specifically for your engines and equipment, and if you change the filters according to the manufacturer's recommendations according to European Block Exemption (see below) Holm filters should not void your manufacturer's warranty.

EUROPEAN BLOCK EXEMPTION The EC Block Exemption Regulation (BER) gives owners of vehicles and construction equipment the flexibility to select where they can get their vehicles serviced. It would effectively allow for a Holm Filter manufactured to the specification as set out by the Original Equipment manufacturer to be used without affecting the OEM warranty. The BER also covers service and maintenance during the warranty period.
